

UTM - Settings - Network

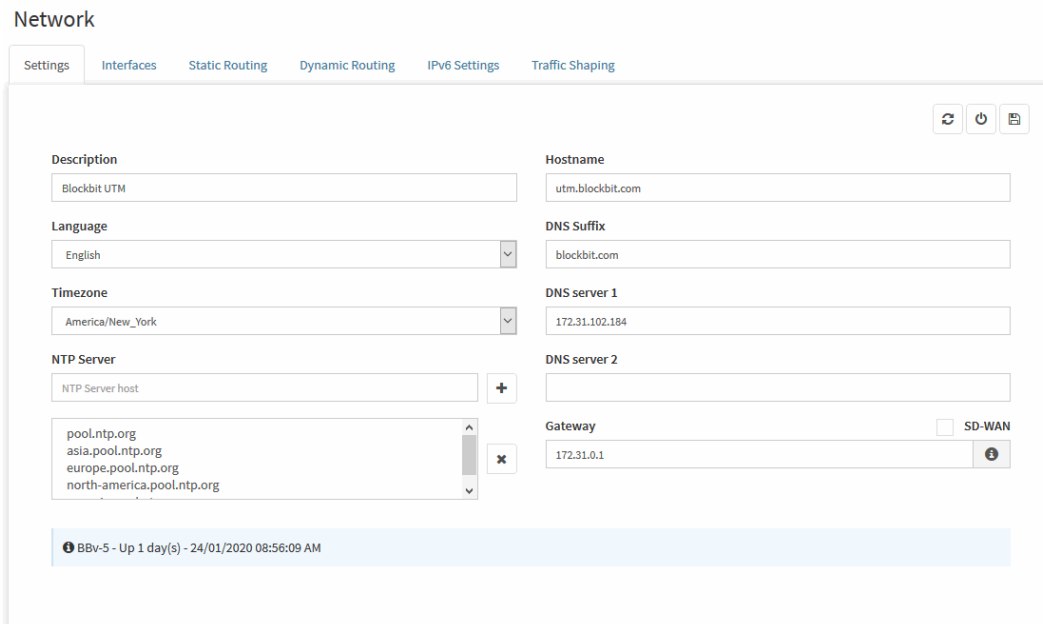

The interface includes an exclusive area for managing and configuring devices from the system information to the settings of the network interfaces and advanced routing.

To access this screen, just select the option "Network".

Settings - Network

The screen below will appear:

Settings - Network - Settings

The Network screen has the following tabs:

- [Settings](#);
- [Interfaces](#);
- [Static Routing](#);
- [Dynamic Routing](#);
- [IPv6 Settings](#);

- [Traffic Shaping](#).

Next we will analyze the components of the [Settings](#) tab.
